## **DETAILED ACTION**

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group A, claims 1-9, drawn to tube or tobacco rod conveyor, Figure 6

Group B, claims 10-15, drawn to tobacco rod shaping mechanism, Figure 3.

Group C, claims 16-19, drawn to tobacco rod conveyor, Figure 5.

Group D, claims 20-22, drawn to tube aligning device, Figure 8.

Group E, claims 23-24, drawn to cigarette maker, Figure 2.

The inventions listed as Groups A-E do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups A-E do not share a special common technical feature. Group A, drawn to a tube or tobacco rod conveyor having the special technical feature of a holding mechanism and lifting device is not shared with groups B-E. Group B, drawn to a rod shaping means having the special technical feature of a compression mechanism, is not share with groups A and C-E. Group C, drawn to a tobacco rod conveyor having the special technical feature of a tapped having guide runs is not shared with groups A, B and D-E. Group D, drawn to a tube aligning device having the special technical feature of a receiving element is shared with groups A, B, C and E. Group E, drawn to a cigarette maker does not share the common special technical features of groups A-D.

A telephone call was made to John Salazar on 9/25/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 09/646,811

**Art Unit: 1731** 

Page 3

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is (703) 605-1174. The examiner can normally be reached on Mon.-Fri. 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on (703) 308-1164. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7718 for regular communications and (703) 305-3599 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0651.
